

APR

**ASSOCIATION OF
PHARMACEUTICAL
RESEARCH**

EchnoareteGroup
Integrating Researchers to Incubate Innovation

ABOUT

- ✍ Association of Pharmaceutical Research (APR) is one of the leading non profitable professional association meant for research and development in the field of pharmaceutical science & technology.
- ✍ APR serves as an excellent international forum for Researchers, Academicians, Doctors and practitioners for sharing knowledge and innovation in pharmaceutical science, research methodologies, formulations, manufacturing and its advances.

- ✍ APR committed to promote highest ethical and professional standards of pharmaceutical research and aims to bring together worldwide researchers and professionals, encourage intellectual development and providing opportunities for networking and collaboration.
- ✍ The members represent various facets of pharmaceutical research and profession namely R&D, regulatory, community pharmacy, hospital pharmacy & education. APR is also actively associated in managing several academic programmes.
- ✍ APR meets with its objectives through academic networking, meetings, conferences, projects, research publications, academic awards and scholarships. APR enrich from its diverse group of advisory members.

OUR SERVICES

The main focus of APR is to make peers and wizards meet and to share their experience, knowledge and provide scope for scientific interactions by organizing International Conferences and Global Standard events in different Institutions and Universities. APR provides access to information to advance careers, skills, and innovation in the pharmaceutical, biotechnology, medical device, and related fields.

International Conferences & Scientific Events

Membership (Institutional/ Professional/Student)

Journals/Publications in (SCOPUS/SCI/ESCI/UGC/Web of Science etc)

Establishing Chapters (Professional/Student)

R&D Assistance- Technical advice to researchers and academicians with a vast network of international experts from Pharmaceutical Science & Technology.

Seminars/Guest Lectures

International workshops to inspire young Pharmacologist and different healthcare disciplines across the globe

Faculty Exchange Programme

The major objective of APR is to offer quality education and resources to the professionals from pharmaceutical background and encourage researchers to work for the growth, development and betterment in the field of Pharmaceutical Science & Technology.

To collaborate with Universities/Institutions to identify researchers and innovators in pharmaceutical and allied sciences at grassroots level and to bring them at a global platform

To promote professional development opportunities on the subjects relevant to the growth of pharmaceutical industry.

To organize training programs and conferences with an aim to bring students and researchers under one umbrella so their ideas can be synergized and enable them to become future leaders of the profession.

To serve as a platform for experts in the areas of R&D, pharmaceuticals, drug delivery, and nanomedicine to come together and explore their absolute potential.

To promote leadership among members while abiding the highest professional and ethical standards.

To establish, maintain and expand national and worldwide network of professionals from Pharmaceutical background.

OUR MISSION

To uphold our social responsibilities of delivering highest standard training, research and development services to all segments of pharmaceutical and allied sciences without compromising on our core values of integrity, good ethics and commitment.

APR strives to become an expert in organizing conferences, summits, seminars and workshops with resourceful and nonpareil speakers throughout the world.

To become an acclaimed pharmaceutical research and association by assuring high quality standards through excellence in technology based on world-class research and development.

OUR VISION

Inspiring excellence through innovative training programs and strategic professional relationships.

Advancing scientific knowledge across the spectrum of drug discovery, health services, and practice-based and translational research with significant focus on collaborative partnerships.

Capitalizing on our spirit to improve pharmaceutical research, practice, and education worldwide.

OUR VALUES

- APR recognizes the importance of ethical behaviour and integrity and will guide the future for better development by ensuring the principles of integrity, continuous learning, innovation and leadership.
- The core values of APR are Innovation, Ensure Quality, Research & Development, Continuous Improvement, Ambition to succeed, Collaboration and Teamwork.

SCOPES AND OPPORTUNITIES

Connecting with Experts and Scholars from Pharmaceuticals, Drug Delivery, Nanomedicine, Biotechnology and Microbiology

Organizes international conferences training programmes, seminars, symposia and workshops, updates on latest technology and regulations governing the various facets of Pharma industry.

Global platform to convey recent developments in drug research and current challenges and possibilities in modelling a new drug

Access to senior-level executives and tremendous networking opportunities to meet leading international pharmaceutical and drug manufacturing companies.

Platform to engage in exciting event format and multiple conference tracks. Share experiences, insights and strategies in interactive peer to peer round tables

To learn innovative methods employed for development and processing in various fields of Pharma industries and drug development

Provide access to the latest national and international updates in a crisp, defined format along with focused profiles of products & niche therapeutic segments

Serve as an Information Transfer platform and Pharmaceutical Education of vastly updated, relevant material to a broad audience in Pharmaceuticals

Publication of research work that contributes significantly to further the scientific knowledge in Pharma and Pharmaceutical Sciences in SCI/ESCI/SCOPUS/WoS/UGC/Google Scholar Indexed Journals

Awards for best paper and poster presentations

APR is one of the largest associations with more than **10,683+** members including clinicians, academic researchers, pharmacists, pharmaceutical scientists, pharmacy students, pharmacy technicians and other healthcare professionals interested in advancing the profession. It serves as an excellent resource with the latest happenings and breakthroughs in the pharma world through seminars, conferences, workshops and publications.

MEMBERSHIP BENEFITS

Membership of APR brings a wealth of resources. Global trends and advances, best practices, the evidence, support for advocacy and strategic activities and a vast global network

1

2 APR membership connects you to a multidisciplinary global network of thousands of Pharmaceutical & Life Science professionals.

Can be a Keynote Speaker, Session Chair / Chairperson & Organizing Committee member of the Conference organized by APR.

3

4 Can be an Editorial Board member, Reviewer, Advisory Committee member of APR to maintain the quality control of research.

Can be a Visiting Professor to the Universities collaborated by APR and receive the designations such as Honorary Fellow of APR, Fellow of APR, MAPR, etc.

5

6 Sessions during the annual conference of Pharmaceutical Sciences and webinars highlighting new activities and roles for pharmaceutical research and development

Discounts on registration fees for the Conferences & events organized by APR.

7

8 Can publish your research and investigation results in SCI/ESCI/SCOPUS Indexed Journals or present them at APR Meetings.

Recognition opportunities and Awards for the best research paper and best paper presentation

9

ABOUT CHAPTERS

- ✧ APR fosters growth in the Pharmaceutical & Life science community through its 157+ student chapters worldwide. Chapter members reflect all facets of Pharmaceutical and Life Science from academia, research, business, and industry.
- ✧ Regardless of size or location and category of membership, every APR chapter offers its members a wealth of benefits, including access to research opportunities and to establish a personal networking system in the region.
- ✧ APR supports the chapter members to make their research worth for availing benefits.
- ✧ With extensive partnerships and pharmaceutical sciences network, APR work to support the development of the pharmacy profession through practice and emerging scientific innovations.
- ✧ APR continue to expand its presence in pharmaceutical sciences and influence through partnerships with some of the world's leading health, policymaking, education and science institutions.
- ✧ APR's local chapters around the world host Guest lectures, conduct workshops by internationally known Pharmaceutical professionals.
- ✧ Participation in all these chapters provides a unique combination of social interaction and professional networking among peers in their respective geographic areas.

CONFERENCES AND EVENTS

- ✧ APR collaborates with Universities, Organizations and other Associations for organizing conferences, scientific events, publications, professional meetings and workshops on advances in drug manufacturing and pharmaceutical sciences
- ✧ APR have started its dedicated journey by organizing global standard events and International Conferences in different Institutions, Universities & conventions
- ✧ The conference will provide ideal forum to stimulate ideas and establish collaborations, as well as to launch intense discussions to secure collaborative projects and to present a highly interactive, stimulating and multidisciplinary program comprising of highly engaging workshops, plenary sessions and edifying round tables
- ✧ APR Conferences and Events bring together people who share a common discipline from different parts of the world, bringing different forms of ideas which build into something greater.

SCIENTIFIC ASSISTANCE

Research Consultancy

- ☑ APR Provide reliable professional services and support Physicians, Doctors, Researchers, post-doctoral researchers for completion of their research work with professional guidance and academic support.
- ☑ APR provides research consultancy and technical advice to researchers and academicians with a vast network of international experts from Pharmaceutical Science & Technology.
- ☑ Deliver the highest quality of service and to seek innovative and creative approaches to problem solving
- ☑ Offering consultancy services to pharmaceutical industry and covers end to end regulatory and business development activity in strategy development
- ☑ Providing regulatory information, schedules and compliance related inputs with expertise in research facility tie-up, Formulations and Clinical Research.

- ❖ APR supports Universities/Institutions for organizing conferences, Meetings, Summits, Research Talks, Workshops by collaboration and support researchers to make their innovations and research work more efficient and effective.
- ❖ APR's renowned Professionals, Experts and Doctors working particularly in Pharmaceutical Science & Technology will help the research scholars to make their research unique by providing more ideas with their experience and knowledge.
- ❖ APR strengthen its mission of promoting professional education through the effective use of policy, information, advocacy, and programming.
- ❖ APR devoted to publish original research articles and reviews in SCOPUS/SCI/ESCI/UGC/Web of Science Indexed Journals
- ❖ APR encourages and supports the research scholars by appointing its members to provide necessary guidance to build and globalize their innovative ideas.
- ❖ Important catalyst for creative ideas and practical strategies for advancing pharmaceutical education to better meet the requirements of students, employers, and society.

PROFESSIONAL ASSISTANCE OF APR INCLUDES

- *Training Programs
- *Research Consultancy
- *R & D Assistance
- *Education and Career Resources
- *Career Development
- *Providing Membership Benefits
- *Young Doctors/Innovation Award
- *Best Research Paper Award
- *Career Development Award
- *Research Professorship Award

JOURNALS AND PUBLICATIONS

- *APR Publish research articles in the prominent open access Journals that promote and globalize innovation of researchers by publishing within the chronicles, journals and transactions of worldwide periodicals.
- *APR publications have shown marked growth in terms of global outreach, impact factors, downloads, citations, quick decision rates by the peer reviewers, number of submissions and stringent acceptance rates.

Publications in globally distributed high impact factor reputed International Journals

☑ **SCOPUS Indexed Journals**

☑ **Springer**

☑ **ESCI**

☑ **Web of Science**

☑ **IoP Conference Series**

☑ **UGC Care**

☑ **Google Scholar Indexed**

☑ **ISI**

☑ **Editorial Board for swift peer-review and convenient Publication.**

☑ **Plagiarism, review reports, Increase Citations publish quality over quantity**

☑ **End-to-End Publication Assistance**

IOP Conference Series

01

APR is proud to have collaborated with several internationally recognized institutions, associations and organize International Conferences, Scientific events, R&D Assistance, Faculty Development Program, Workshops, Annual Meets and Student Chapters

The goal of APR is to create a worldwide integrated scientific platform with well-connected resource of Pharmaceutical and Life Science Professionals.

03

With our mission to make our academic services reach the top, we are sponsoring Universities/Institutions to organize conferences and scientific events by which researches across the world could directly contribute towards transformation of Pharmaceuticals.
